Custom Imprinted Gloves

2018 Cat. No. A62
www.honestabegloves.com
ABOUT US

Honest Abe offers gloves for every promotion & budget. We provide superior fit, comfort, quality & price for work, garden & outdoors. We have the finest imprinting and fast turnaround. We also make custom gloves and colors, so if you are looking for a glove not seen here, please contact us or your distributor for more information.

In 1919, Sam Shmikler, after working for ten years in glove factories, decided to start his own glove manufacturing company. His formula for success was simple: use the best raw materials, ship the goods when promised, charge a fair price and you will have the happiest customers around. By maintaining Sam’s formula through four generations, Illinois Glove Company continues to be the leader in hand protection. This long history of craftsmanship and pride makes us the best in the industry.

Today, we continue to devise changes that make our gloves fit better, last longer and increase protection. Our goal is to provide our customers with the competitive advantage they need in today’s marketplace. We guarantee you will be 100% satisfied.

Sincerely,

David Shmikler
President

Imprint Specifications

**Imprint Area**
The back of the hand or cuff.

Imprint size varies based on the glove’s style, size and the imprint method.

*Vector art is required

**Imprint Direction:** Please specify imprint direction when ordering. Either wearer reads or upside down to wearer.

Safety & Compliance

**Sedex Members Ethical Trade Audits (SMETA)** - Illinois Glove Company is proud to be SMETA 4 Pillar compliant. This audit ensures that we meet rigorous standards related to labor, health, safety, environmental and business ethics.

**Prop 65 & CPSIA** - Product safety and compliance are very important to us, our distributors and the consumer. All our decoration materials have been third-party tested and do not contain any lead. We comply with all laws and regulations related to Proposition 65 and the Consumer Product Safety Improvement Act (CPSIA).
**Heat Transfer:** A non-toxic wax imprint is transferred to the gloves by heat and pressure. Used on suede leather and fabric. Washable & durable. There must be separation between each color on a heat transfer. Up to three colors.

**Embroidered Patch:** A stitched design is produced into a patch. The patch is heat pressed onto the glove for a permanent seal. Includes 9 colors & up to 100% embroidery coverage. This is a great way to get that beautiful professional embroidered look & feel for a low price.

**Brand:** A design is burned into leather using heat and pressure. No color is added with branding. Used on grain and suede leather only. Also called embossing.

**Pad Print:** A special rubber pad is applied to the gloves using a non-toxic ink. Choose one color only. Colors include yellow, white, red, royal blue, green, brown, black. Many more colors available.

**4CP Digital Transfer:** A four color transfer is made using a special CMYK printer and then applied to the glove by heat and pressure. Stretches without cracking, washable & durable. A four-color process logo for only one set-up charge.

**Silkscreen Transfer:** A transfer is made using a silkscreen method and applied to the glove by heat and pressure. Stretches without cracking, washable & durable. Up to three colors. Used primarily on knit gloves.
