SUBJECT: Consumer Product Safety Improvement Act

Dear Sirs,

following your request, we can state that the inks:

J-NEXT SUBLY (*series*)

based on the information and representation given us by our raw material suppliers, are formulated to be in compliance with the Consumer Products Safety Improvement Act 2008 (and amendments), as regard to the following chemicals or compounds, that we do not use intentionally:

- Heavy Metals: Antimony, Arsenic, Barium, Cadmium, Chromium, Lead, Mercury, Nickel, Selenium, Silver
- Cyanide
- Chlorofluorocarbons (CFC)
- Alkylphenol ethoxylates (APEO)
- Nonylphenol (NPEO)
- Octylphenol Ethoxylates (OPEO'S)
- Polycyclic Aromatic Hydrocarbons (PAH)
- TBBPA
- DecaBDE
- HBCDD
- Phthalates: DEHP, DBP, BBP, DINP, DIDP, DnOP, DIBP, DMP, DnHP, and all other esters of ortho-phthalic acid
- Organotin compounds

Yours faithfully,

Andrea Marzocchi

Quality, Product Safety, EHS Director

JK GROUP S.p.A.

The above declaration is valid for one year and if no changes possible formulae or legislation reach us.
This declaration refers to the initial analysis of the formula and the components of the product itself.
This declaration is not based on a routine analysis of such product or the raw material that form it.
Possible specific requirements will have to be submitted to the evaluation of JK Group S.p.A.
