# STICKYDRIVE™

VALUE ADD SOFTWARE FOR ANY FLASH DRIVE

## StickyDrive™

StickyDrive brands the screen with your customers company colors, logos, and links to their website with an integrated app inside a USB drive.

### What can it do?

With StickyDrive installed, when people plug in the USB StickyDrive, they are prompted to run the application, much like apps on a phone.

When customers open the StickyDrive app, it brings up a screen or "user interface". This interface contains links provided by your customer to their website, or to files stored on the USB.

Even better, each time the StickyDrive app is opened, the app checks for updates to the screen design, links to websites, or files on the USB. If new materials are ready for receiving to end users, the updates are automatically sent. This enables your clients to update the program interface and files on the StickyDrive remotely, providing an ongoing channel to push content to customers. Update a catalog, a presentation document, a product guide.... any file can be updated on the

StickyDrives after they have been handed out.

In addition to being able to update, here are some other optional benefits of adding StickyDrive to your USB order:

- A registration process, so you can collect names/emails of the end users receiving the StickyDrives.
- A report showing how many people are using the USBs.
- Click reports show what files end users are viewing, how frequently, how many total files view, and more.

*Make sure to ask about adding StickyDrive to your next USB order.*

STICKYDRIVE.COM

*Any file can be updated on the StickyDrives even after they have been put into circulation!*

# SMARTDRIVE™

VALUE ADD SOFTWARE FOR ANY FLASH DRIVE

## Benefits:

- Manage documents from anywhere at anytime
- Automatically receive documents on any operating system
- Track the usage of drives and document open rates
- Easy to use file menu system adds value for end users
- Join the GREEN initiative with a much smaller carbon footprint
- No need to buy new flash drives when launching new campaign
- Measure ROI for the first time ever on your campaign
- Corporate brand awareness built into the file menu

All of these benefits are available with ANY flash drive!

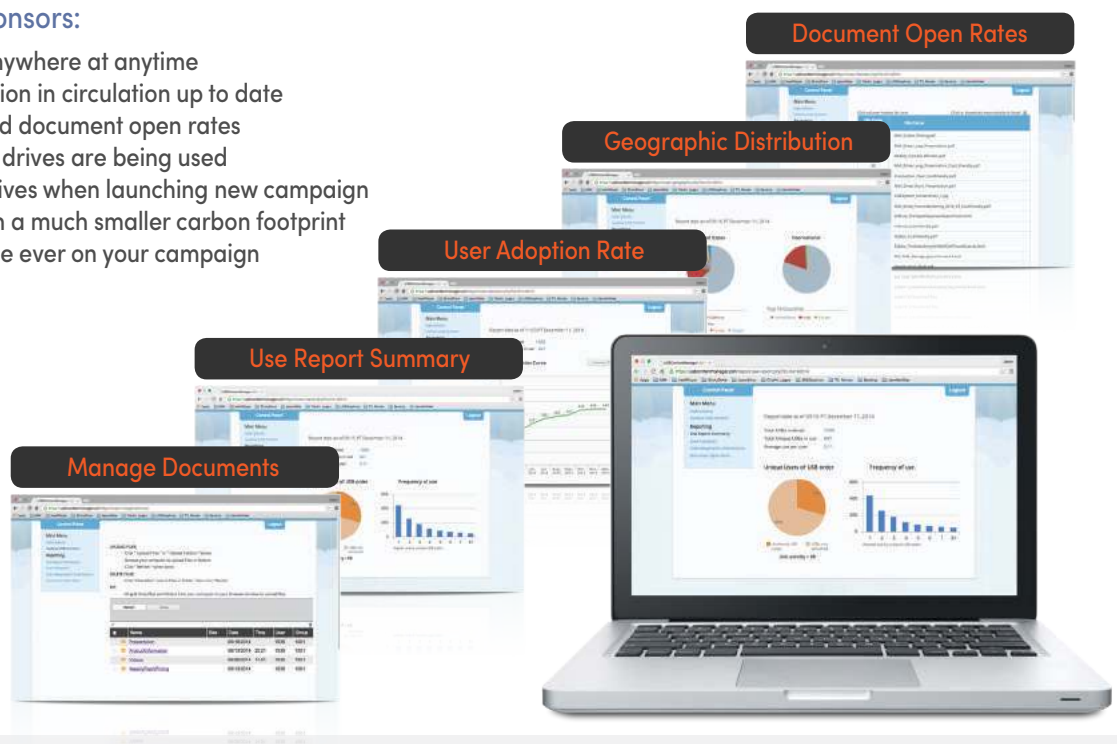

## Benefits For Flash Drive Users:

- SmartDrive is intuitive, easy and fun
- Users will always have the most current files
- Check for updates manually at any time
- Users don't have to fuss with difficult FTP access or Internet
- Manage personal documents with built-in file management tools
- Turn file menu off but still receive document updates
- Easily click through to preprogrammed website
- Drag-n-drop files to and from SmartDrive from the user interface
- Always have current documents with you even on public computers

## Benefits For Corporate Sponsors:

- Manage documents from anywhere at anytime
- Keep important documentation in circulation up to date
- Track the usage of drives and document open rates
- See where in the world your drives are being used
- No need to buy new flash drives when launching new campaign
- Join the GREEN initiative with a much smaller carbon footprint
- Measure ROI for the first time ever on your campaign
