CHAMPION PERFORMANCE | Nightstick products are built with optimized performance characteristics such as: candela, beam distance and run-times. Throughout the design process we take into consideration all of these factors for the best efficiency and performance. Nightstick uses CREE® LEDs, the #1 LED manufacturer in the world. Our products are also designed and manufactured using the best quality housing materials, precision engineered reflectors, real-world switch functionality, state-of-the-art electronics and the latest generation battery technology. Innovations like our exclusive Dual-Light™ design, combining a flashlight and a floodlight into a single light with the ability to turn both on simultaneously, is altering the idea of what a flashlight is capable of. Innovative thinking is reflected across the complete line of products.
