LOGO CLOTH FOLDING INSTRUCTIONS

PLEASE FOLLOW THE STEPS BELOW TO GIVE YOUR CLOTH THE BEST APPEARANCE AND TO PREVENT CREASING YOUR LOGO.

rev. 12.7.18

STEP 1

Fold your logo cloth in half horizontally, with the logo facing down on the table. Line up the sewn edges and smooth out any wrinkles so the cloth lays flat and symmetrical.

STEP 2

From the center of the open side of the cloth, fold toward the middle until the logo begins to appear. Pull the fold back slightly, ensuring the entire logo is still flat on the table and not curling up into the fold.

STEP 3

From the other side of the cloth, repeat the folding process from step two. Again, the entire logo should stay flat on the table and not curling up into your folded edge.

STEP 4

Fold each end of the cloth inward, about 18 inches.

STEP 5

Roll the cloth. Rolling rather than folding the cloth will prevent creasing in your logo.

Do not fold or crease logo area. If your logo should become creased: iron cloth inside out on a flat surface. Do not apply iron directly to the logo. Place the side with the logo against a flat surface and apply iron for 5-10 seconds. Repeat as necessary.

DO NOT FOLD OVER LOGO

WASHING INSTRUCTIONS

We recommend machine washing in cold water by itself, with a cold rinse on a delicate cycle. Adding one cup of vinegar to the wash cycle during the first wash is also recommended. Do not use bleach. Dry the cloth on a gentle cycle with a no-heat setting.

DO NOT DRY CLEAN
